EXPERIENCE

Web Developer (Full Stack) — BLUEBOXX DA Pvt Ltd

- Enterprise HR Management System (hrms.blueboxx.in):** Architected and deployed an HRMS for internal operations with 4 role-based portals (Admin, HR, Manager, Employee), automated attendance logging, multi-stage leave approvals, ATS candidate tracking, and real-time push notifications.
- Company Website & EdTech Platform (blueboxx.in):** Independently built and maintain the primary web presence and course engine, including interactive course listings, 1:1 mentor booking workflows, and Razorpay payment webhook integration.
- Stack:** Next.js 15 (App Router), TypeScript, Laravel 11, PHP 8.2, MySQL, REST APIs, RBAC, Tailwind CSS.

PROJECTS

InsurMatch — AI Insurance Agent Matchmaker

[GitHub](#)

- Built a full-stack platform matching clients with insurance specialists using pgvector cosine similarity over query embeddings and multi-attribute agent profiles.
- Added graceful fallback to keyword matching, Supabase Auth with Row Level Security, dual client/agent portals with consultation scheduling, and a Dockerized setup.

Next.js, TypeScript, PostgreSQL (pgvector), Supabase Auth, Docker

Object Detection & Food Scanner (Android, Edge AI)

[GitHub](#)

- Trained YOLOv8 Nano, converted it to TFLite, and shipped real-time on-device camera inference that works fully offline.
- Built an AI product scanner for packaged food ingredient info; optimized the frame-by-frame pipeline and quantization workflow.

Kotlin, YOLOv8 Nano, TensorFlow Lite, Jetpack Compose, CameraX

MedTrip — Online Medicine Store

[GitHub](#)

- Developed an online pharmacy with authentication, prescription uploads, searchable medicine catalog, cart, and Razorpay checkout.

Laravel, PHP, MySQL, Bootstrap, Razorpay API

Aura Weather (Flutter)

[GitHub](#)

- Built a cross-platform weather app with real-time forecasts, radar maps, and worldwide city geocoding.

Flutter, Dart, Google Maps API, Open-Meteo API, Bloc/Provider

Smart Expense Tracker (Android)

[GitHub](#)

- Built an income/expense tracker with visual analytics, categorical budgeting, and cloud sync.

Java, Android SDK, Firebase Realtime DB, MPAndroidChart
